

Environmental Sensitivities Map

Legend

1. Proposed Development:

Dams = blue areas

Cultivation = green shaded areas

2. Environmental Sensitivity:

Botanical Conservation Area = pink hatched areas

Botanical 5m buffer = pink dotted line (road/firebreak)

Faunal Sensitive Areas = yellow shaded areas*

*Note: the yellow shaded areas overlap with existing 'developed' areas in certain areas. Furthermore, where the yellow shaded area overlaps with the 'proposed development' areas, as above, the faunal specialist has confirmed that these impact ratings are acceptable.
