Department of Environmental Affairs and
Development Planning

ADOPTION OF A MAINTENANCE MANAGEMENT PLAN

Request for the adoption of a Maintenance Management Plan in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) ("NEMA") and the Environmental Impact Assessment ("EIA") Regulations, 2014.

APRIL 2024

DEPARTMENTAL DETAILS

CAPE TOWN OFFICE: DIRECTORATE: DEVELOPMENT MANAGEMENT (REGION 1) (City of Cape Town, West Coast District, Cape Winelands District & Overberg District)	GEORGE REGIONAL OFFICE: DIRECTORATE: DEVELOPMENT MANAGEMENT (REGION 3) (Central Karoo District & Garden Route District)
<p>The completed Form must be sent via electronic mail to: DEADPEIAAdmin@westerncape.gov.za</p> <p>Queries should be directed to the Directorate: Development Management (Region 1) at: E-mail: DEADPEIAAdmin@westerncape.gov.za Tel: (021) 483-5829</p> <p>Western Cape Government Department of Environmental Affairs and Development Planning Attention: Directorate: Development Management (Region 1) Private Bag X 9086 Cape Town, 8000</p>	<p>The completed Form must be sent via electronic mail to: DEADPEIAAdmin.George@westerncape.gov.za</p> <p>Queries should be directed to the Directorate: Development Management (Region 3) at: E-mail: DEADPEIAAdmin.George@westerncape.gov.za Tel: (044) 814-2006</p> <p>Western Cape Government Department of Environmental Affairs and Development Planning Attention: Directorate: Development Management (Region 3) Private Bag X 6509 George, 6530</p>

IMPORTANT INFORMATION TO BE READ PRIOR TO COMPLETING THE ATTACHED FORM:

1. Purpose

The purpose of this form is to provide baseline information for the adoption of a Maintenance Management Plan ("MMP) by the competent authority.

2. Administrative requirements

This form must be used to request the competent authority to adopt a Maintenance Management Plan in terms of the NEMA EIA Regulations, 2014.

3. Maintenance Management Plan information

- 3.1 This form is for the adoption of a MMP and only relates to the Listed Activities as contained in Listing Notice 1, 2 and 3 of the EIA Regulations, 2014 that make provision for the adoption of a MMP.
- 3.2 Please note that an MMP can only be considered for activities pertaining to maintenance related work. Construction work related to new or expanded structures or infrastructure beyond the existing footprint cannot be considered as part of the request for the adoption a MMP by the competent authority.
- 3.3 Construction work related to new or expanded structures or infrastructure beyond the existing footprint may trigger a listed activity in terms of the EIA Regulations, 2014 and environmental authorisation may be required. If this is the case an application for environmental authorisation must be submitted to the competent authority.
- 3.4 Notwithstanding the MMP possibly being defined or adopted by the Competent Authority, any other applicable statutory requirements must still be complied with (e.g. any obligations under the National Water Act, 1998 (Act 36 of 1998) or the Conservation of Agricultural Resources Act, 1983 (Act 43 of 1983)).
- 3.5 The proponent must note that a MMP for a watercourse must be undertaken through consultation with the Department of Water and Sanitation and/or the relevant Catchment Management Agency (responsible water authority). This is to ensure compliance in terms of a Permissible Water Use as set out in the National Water Act, 1998 (Act No. 36 of 1998). It is recommended that this process for authorisation in terms of the National Water Act be clarified prior to the drafting and submission of the MMP.
- 3.6 The adoption of a MMP does not absolve the proponent from complying with any applicable legislation or the general "duty of care" set out in Section 28(1) of the NEMA that states, "*Every person who causes, has caused or may cause significant pollution or degradation of the environment must take reasonable measures to prevent such pollution or degradation from occurring, continuing or recurring, or, in so far as such harm to the environment is authorised by law or cannot reasonably be avoided or stopped, to minimise and rectify such pollution or degradation of the environment.*" (Note: When interpreting this "duty of care" responsibility, cognisance must be taken of the national environmental management principles contained in Section 2 of the NEMA.
- 3.7 Please note that the content of a MMP must include *inter alia*, the following:
 - A description of the objectives of the MMP;
 - A description of the relevant legislation and polices within which the MMP is prepared;
 - A description of the site and a locality map;
 - A description of the proposed maintenance activities;
 - A description of the tasks that will be performed (method statement);
 - A description of the potential impacts on the receiving environment and any management and/or mitigation measures to minimise the potential impacts associated with the maintenance activity;
 - Any specialist inputs that were obtained; and
 - The roles and the responsibilities of the role players who will be involved in the maintenance activity.
- 3.8 A public participation process must be undertaken as part of the request for the competent authority to adopt a MMP. As a minimum you will be required to:
 - inform the surrounding neighbours, your local authority and the relevant water authority of your intentions (these interested and affected parties will be regarded as registered interested and affected parties);
 - allow a minimum of 30 days as a commenting period for these interested and affected parties;
 - obtain written comment from all relevant Organs of State and the Local Authority; and

- respond to comments received and the proof of the public participation including all comments received and responses provided thereto must be submitted to the competent authority. **[Please refer to Appendix D1 and Appendix D2]**

4. General

4.1 Submission of documentation, reports and other correspondence:

The Department has adopted a digital format for corresponding with proponents/applicants or the general public. If there is a conflict between this approach and any provision in the legislation, then the provisions in the legislation prevail. If there is any uncertainty about the requirements or arrangements, the relevant competent authority must be consulted.

The Directorate: Development Management has created generic e-mail addresses for the respective Regions, to centralise their administration. Please make use of the relevant general administration e-mail address below when submitting documents:

DEADPEIAAdmin@westerncape.gov.za

Directorate: Development Management (Region 1):
City of Cape Town; West Coast District Municipal area;
Cape Winelands District Municipal area and Overberg District Municipal area.

DEADPEIAAdmin.George@westerncape.gov.za

Directorate: Development Management (Region 3):
Garden Route District Municipal area and Central Karoo District Municipal area

General queries must be submitted via the general administration e-mail for EIA related queries. Where a case-officer of DEA&DP has been assigned, correspondence may be directed to such official and copied to the relevant general administration e-mail for record purposes.

- 4.2 The required information must be typed within the spaces provided in the form. The sizes of the spaces provided are not necessarily indicative of the amount of information to be provided. The tables may be expanded where necessary. Please make use contrasting colours in the answer blocks to improve the visibility and highlight information.
- 4.3 The quality, correctness and detail of information submitted by you is extremely important and it remains your responsibility to interrogate the specifics of your proposed development in order to report on the potential listed activities in this form.
- 4.4 This form is a guide to the information that must be submitted. Any additional information, pictorial evidence or explanations prompted by the form must be submitted along with this form in order to ensure that the competent authority does not need to request additional information from you. Incomplete forms will result in a request for additional information.
- 4.5 Unless protected by law all information contained in, and attached to this form, will become public information on receipt by the Department. Upon request, the Applicant/EAP must provide any interested and affected party with the information contained in or submitted with this Form.

Protection of Personal Information Act, 2013 (Act No. 4 of 2013) ("POPIA"):

Your attention is drawn to POPIA which is a comprehensive data protection legislation enacted in South Africa and came into effect on 1 July 2020. POPIA aims to give effect to the constitutional right to privacy, whilst balancing this against competing rights and interests, particularly the right of access to information. Please note that your personal information will only be used as far as it relates to the EIA process. By including your personal details in the Form and any subsequent reports and documents it will be deemed as giving consent to use this information as far as it relates to the EIA process.

- 4.6 This form is current as of **April 2024**. It is the responsibility of the Proponent/EAP to ascertain whether subsequent versions of the form have been released by the Department. Visit the Department's website at <http://westerncape.gov.za/eadp> to check for the latest version of this Form.
- 4.7 This form must be **duly dated and signed** by the Proponent and/or EAP (wherever applicable) and must be submitted to the Department at the details provided below.
- 4.8 Please note that it is an offence for a person to provide incorrect or misleading information in any form, including any document submitted in terms of the EIA Regulations to a competent authority or omits information that may have an influence on the outcome of a decision of a competent authority.

5. Circulars, Guidelines and Tools

The Department's latest Circulars pertaining to the "One Environmental Management System" and the EIA Regulations, and guidelines must be taken into account when completing this Form.

ADOPTION OF A MAINTENANCE MANAGEMENT PLAN FORM

REQUEST FOR THE ADOPTION OF A MAINTENANCE MANAGEMENT PLAN IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT NO. 107 OF 1998) (“NEMA”) AND THE ENVIRONMENTAL IMPACT ASSESSMENT (“EIA”) REGULATIONS, 2014.

APRIL 2024

GENERAL PROJECT DESCRIPTION

(This must include an overview of the project including the Farm name/Portion/Erf number/the extent of the maintenance activities)

REQUEST FOR THE ADOPTION OF A MAINTENANCE MANAGEMENT PLAN FOR THE PROPOSED REHABILITATION OF A WETLAND PORTION ON ERF 8308, GRABOUW.

An Environmental Authorisation (EA) for the extension of the Elgin Poultry Abattoir in Grabouw Industria was granted in 2015 by the Department of Environmental Affairs and Development Planning (DEA&DP). The approved extension entails the expansion of existing buildings and infrastructure in two phases. Phase 2 of the project will result in the infilling and loss of two wetland portions located in the north-eastern corner of erf 8611. Erf 8611 is owned by Elgin Free Range Chickens. In order to compensate for the loss of onsite wetland functionality, the Freshwater Assessment Report compiled by BlueScience (Grobler & Belcher, 2014) recommended the rehabilitation of a portion of the wetland area on erf 8308 (previously portion 10 of erf 291), situated immediately north/northeast of the Elgin Poultry Abattoir. Erf 8308 is owned by the Theewaterskloof Municipality. The current Wetland Rehabilitation and Maintenance Management Plan details the wetland rehabilitation and long-term maintenance management actions that need to be implemented on current erf 8308 for the required mitigation to be realised. The activities proposed include rehabilitating the wetland area on Erf 8308 in Grabouw by constructing a retention embankment and reshaping the wetland area to address current unnatural canalisation and establish a variety of water depths. The reshaped area will then be revegetated with indigenous vegetation. Long-term maintenance actions will primarily focus on maintenance to the retention embankment, the ongoing control of alien invasive vegetation, ensuring the health of revegetated areas, and the removal of litter and solid waste from within the wetland. Ongoing

monitoring (including water quality monitoring) will be implemented throughout the rehabilitation and operational phase.

GENERAL REQUIREMENTS

1.1. Locality Map

A locality map must be attached to the Form, as Appendix A. The scale of the locality map must be at least 1:50 000. For linear activities of more than 25 kilometres, a smaller scale e.g. 1:250 000 can be used. The scale must be indicated on the map. The map must include the following:

- an accurate indication of the project site position;
- road names or numbers of all the major roads as well as the roads that provide access to the site(s)
- a north arrow;
- a legend;
- the prevailing wind direction; and
- GPS co-ordinates (Indicate the position of the proposed maintenance activities on the site). The co-ordinates should be in degrees, minutes and seconds. The minutes and seconds should be to at least three decimal places. The projection that must be used in all cases is the Hartebeesthoek94 WGS84 co-ordinate system. **If maintenance activities will be undertaken along a stretch of a watercourse, the start, middle and end co-ordinates must be provided.**

Please refer to Appendix A

PART 2: ADOPTION OF A MAINTENANCE MANAGEMENT PLAN

SECTION B: DETAILS OF THE PROPOSED MAINTENANCE ACTIVITY(IES)

Please Note: The detailed Wetland Rehabilitation and Maintenance Management Plan for adoption (inclusive of appendices) is attached to this application as **Appendix B**

1.	<p>Provide a detailed description of the proposed maintenance activity(ies). (Please ensure that a method statement is included for each maintenance activity.)</p> <p>The proposed rehabilitation and maintenance management activities and methods statements for each activity are detailed in Section 3 of the attached Wetland Rehabilitation and Maintenance Management Plan (Appendix B1).</p> <p>In summary, the key activities include:</p> <p>Activity 1: Removal of dumped / discarded material and litter from the area designated for wetland rehabilitation</p> <ul style="list-style-type: none"> o Removal of foreign fill material. o Regular solid waste inspections and cleanup o Ensuring unobstructed water flow through the system <p>Activity 2: Alien Vegetation Clearing</p> <ul style="list-style-type: none"> o Removal of invasive grass species and attempt to maintain the wetland free from invasive grasses as far as possible o Ongoing targeted removal of invasive plant species <p>Activity 3: Wetland habitat rehabilitation and maintenance activities, designed to improve the quality of wetland habitat and habitat diversity</p> <ul style="list-style-type: none"> o Constructing a retention embankment to enhance water retention o Reshaping the wetland to create varied water depths o Maintain established shape and prevent canalisation and erosion <p>Activity 4: Revegetation and maintenance of revegetated areas</p> <ul style="list-style-type: none"> o Establishment and maintenance of locally indigenous, locally sourced plant communities <p>Activity 5: Monitoring and Maintenance</p> <ul style="list-style-type: none"> o Regular site visits by a freshwater specialist during rehabilitation o Conducting follow-up and long-term management audits o Ongoing water quality monitoring o Fixed-point photography to monitor overall rehabilitation progress and track ecological changes <p>These activities aim to restore and maintain the wetland's ecological functionality in order to achieve the required degree of mitigation.</p>
----	--

2.	<p>Clearly describe the current state of the area where the maintenance activities will take place. (This must be supported by recent colour photographs)</p> <p>The baseline conditions of the wetland environment, detailed in Section 1.3 of the attached Wetland Rehabilitation and Maintenance Management Plan (Appendix B1), can be summarized as follows:</p> <ul style="list-style-type: none"> - A site assessment was undertaken on the 9th of February 2024. - The assessment revealed that the offsite wetland area had been significantly disturbed by canalisation, compaction, dumping of rubbish and foreign fill material, along with the proliferation of alien invasive vegetation. - Large portions of the offsite wetland area were found to be covered by grass, most notably, Pennisetum clandestinum (kikuyu grass), Cynodon dactylon (fynkweek) and Stenotaphrum secundatum (buffalo grass). These species have become invasive and must be controlled. - Currently, the offsite wetland area to the north and east of the property is fed by Stormwater (SW) draining the industrial built-up area surrounding the site (Grobler & Belcher, 2014). The two wetland portions located in the north-eastern corner of the property are the result of the canalisation of storm water from Industria road onto the property. As such, with the
----	---

loss of the two onsite wetland portions, SW from Industria road along with uncontaminated SW from the site will also now drain into this area. The general topography of the offsite wetland area slopes from the southeast to the northwest, with a channel draining SW into the Klipdrift River to the northwest of the site.

- Canalization occurred subsequent to the initial Freshwater Assessment Report prepared by BlueScience (Grobler & Belcher, 2014), causing significant disturbance to the hydrology and original topography of the wetland area beyond the site boundaries.
- Despite the disturbances, patches of indigenous vegetation such as *Juncus spp.*, *Typha spp.*, *Paspalum distichum*, and *Psoralea spp.* are present, with some plants still in a healthy state.

Please refer to Appendix C for colour photographs

3.	Property location	The property is located immediately north of the Grabouw Industrial Area, adjacent to the Elgin Free Range Chicken Poultry Abattoir.																				
4.	Erf/Farm name(s), number(s) and portion(s)	Erf RE/8308, Grabouw																				
5.	Property size(s) (m ²) of all proposed sites:	Approximately 2,2ha																				
6.	SG Digit code(s) of the all the proposed property(ies)																					
	(description of cadastral unit)	C	0	1	3	0	0	1	0	0	0	0	0	8	3	0	8	0	0	0	0	
7.	Coordinates of the proposed site(s) where the maintenance activity/ies will be conducted:																					
	Latitude (S)	34°									8'			57.05"								
	Longitude (E)	19°									0'			22.66"								

Note: If the maintenance activities will be undertaken along a linear stretch such as a watercourse, the start, middle and end coordinates must be provided.

SECTION C: POTENTIAL LISTED ACTIVITIES THAT YOU REGARD TO BE APPLICABLE TO THE PROPOSED MAINTENANCE ACTIVITY(IES)

All activities listed in terms of the EIA Regulations, 2014 that may be associated with the proposed maintenance activities must be provided below.

Activity No(s):	Provide the relevant Activities as set out in Listing Notice 1	Describe the portion of the proposed development to which the applicable listed activity relates.
Activity 19	The infilling or depositing of any material of more than 10 cubic metres into, or the dredging, excavation, removal or moving of soil, sand, shells, shell grit, pebbles or rock of more than 10 cubic metres from a watercourse; but excluding where such infilling, depositing, dredging, excavation, removal or moving— (a) will occur behind a development setback; (b) is for maintenance purposes undertaken in accordance with a maintenance management plan; (c) falls within the ambit of activity 21 in this Notice, in which case that activity applies; (d) occurs within existing ports or harbours that will not increase the development footprint of the port or (e) harbour; or	The proposed development activities include the undertaking of earthworks within a delineated wetland for the purpose of wetland rehabilitation.
Activity No(s):	Provide the relevant Activities as set out in Listing Notice 2	Describe the portion of the proposed development to which the applicable listed activity relates.
N/A		N/A
Activity No(s):	Provide the relevant Activities as set out in Listing Notice 3	Describe the portion of the proposed development to which the applicable listed activity relates.
Activity 12	The clearance of an area of 300 square metres or more of indigenous vegetation except where such clearance of indigenous vegetation is required for maintenance purposes undertaken in accordance with a maintenance management plan.	The proposed development activities involve a degree of vegetation removal within a wetland as part of the rehabilitation efforts. While the area is significantly

	<p>Western Cape</p> <ul style="list-style-type: none"> i. Within any critically endangered or endangered ecosystem listed in terms of section 52 of the NEMBA or prior to the publication of such a list, within an area that has been identified as critically endangered in the National Spatial Biodiversity Assessment 2004; ii. Within critical biodiversity areas identified in bioregional plans; iii. Within the littoral active zone or 100 metres inland from high water mark of the sea or an estuarine functional zone, whichever distance is the greater, excluding where such removal will occur behind the development setback line on erven in urban areas; iv. On land, where, at the time of the coming into effect of this Notice or thereafter such land was zoned open space, conservation or had an equivalent zoning; or v. On land designated for protection or conservation purposes in an Environmental Management Framework adopted in the prescribed manner, or a Spatial Development Framework adopted by the MEC or Minister. 	<p>transformed and predominantly covered by alien invasive grasses, it has not been cleared in the past decade. Therefore, under current regulations, it still qualifies as indigenous vegetation.</p>

PART 3 DECLARATIONS

SECTION A: DECLARATION OF THE PROPONENT

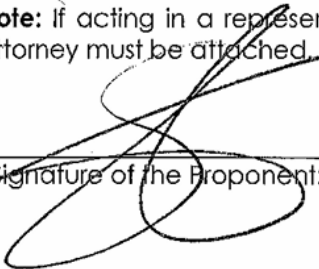

Note: Duplicate this section where there is more than one Proponent.

I, Roedolf Johannes Steenkamp ID Number: 6607155236082

in my personal capacity or duly authorised thereto hereby declare/affirm that:

- the information provided or to be provided as part of this form, is true and correct;
- I am fully aware of my responsibilities in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) ("NEMA"), the Environmental Impact Assessment ("EIA") Regulations, as defined in Chapter 5 of NEMA (as amended) and any relevant Specific Environmental Management Acts and that failure to comply with these requirements may constitute an offence in terms of relevant environmental legislation;
- I am aware that it is an offence in terms of Section 24F of the NEMA should I commence with a listed activity prior to obtaining an Environmental Authorisation;
- I am aware of my general duty of care in terms of Section 28 of the NEMA;
- I will provide the EAP and specialist, where applicable, and the competent authority with access to all information at my disposal that is relevant to the application;
- I will be responsible for the costs incurred in complying with the EIA Regulations, 2014 and other environmental legislation including but not limited to –
 - costs incurred for the appointment of the EAP or any person contracted by the EAP; and
 - costs in respect of any specialists, if any.

Note: If acting in a representative capacity, a certified copy of the resolution or power of attorney must be attached.
