

08-10-2025

PUBLIC PARTICIPATION PROCESS:

**PROPOSED MAINTENANCE OF FARM DAMS ON PORTION 7 OF FARM 153
STEENEBRUG, PIKETBERG, WESTERN CAPE.**

A Public Participation Process was followed in terms of:

A. The National Environmental Management Act, 1998 (Act No. 107 of 1998; “NEMA”), as amended, and the Environmental Impact Assessment Regulations, as amended, that came into effect on the 07 April 2017. The Activity commenced post April 2017 and thus unlawful in terms of the NEMA EIA Regulations 2014, as amended, which were the lawful regulations at the time and still are:

Government Notice No. R327 (Listing Notice 1): Activities 12, 19 and 27; and

Government Notice No. R324 (Listing Notice 3): Activities 12, and 14.

The following proof is provided herewith:

- 1) Written notice, in the form of a letter, was sent to all identified I&APs via Email.
- 2) The Draft MMP document was available on our company website www.phsconsulting.co.za under our Public Participation link for Interested and Affected parties to review.
- 3) An I&AP register serving as a means to register I&AP's comments and to record all information was also opened. All comments received and responses thereto have been included in a Comments & Response Report (Refer to Appendix C).
- 4) Communications received from I&APs (emails).

1. PROOF OF WRITTEN NOTICE

NOTIFICATION OF A PUBLIC PARTICIPATION PROCESS:

MAINTENANCE MANAGEMENT PLAN FOR THE PROPOSED MAINTENANCE ACTIVITIES OF 2 DAMS

ON STEENEBRUG FARM, PORTION 7 OF FARM 153, PIKETBERG, WESTERN CAPE

DEA&DP Ref.: 16/3/3/6/3/F1/11/2154/25

21 August 2025

Notice is hereby given of a Public Participation Process in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) ("NEMA") and the Environmental Impact Assessment ("EIA") Regulations, 2014. This process pertains to the request for the adoption of a Maintenance Management Plan for the proposed maintenance activities of the 2 farm dams on Portion 7 of Farm 153 Steenebrug, North of Piketberg.

In compliance with EIA Regulations Listing Notice 1 of 2014 (as amended): Activity 19, and the National Water Act, 1998 (Act No. 36 of 1998): Sections 21 (c) and (i) we submit the *Proposed Maintenance Management Plan* with the following appendices for comment:

- Appendix A: Freshwater Assessment by Delta Ecology (August 2025)
- Appendix B: Locations of maintenance activities
- Appendix C: Proof of WULA process

Project Name: Maintenance Management Plan for two instream dams on Portion 7 of Farm 153 Steenebrug, Piketberg.

Nature and Location of Activity: The proposed activities involve the maintenance activities necessary to restore the capacity of 2 in-stream dams and associated infrastructure, and the 2 non-perennial rivers that flow into them.

Dear Sir

ACKNOWLEDGEMENT OF RECEIPT OF THE DRAFT MAINTENANCE MANAGEMENT PLAN IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT NO. 107 OF 1998) ("NEMA") AND THE ENVIRONMENTAL IMPACT ASSESSMENT ("EIA") REGULATIONS, 2014 (AS AMENDED): THE MAINTENANCE OF TWO FARM DAMS AND ASSOCIATED INFRASTRUCTURE ON PORTION 7 OF THE FARM NO. 153, STEENEBRUG, PIKETBERG

1. The request for the adoption of a Maintenance Management Plan ("MMP") for the maintenance of two farm dams and associated infrastructure, received by this Directorate via electronic mail correspondence on 4 August 2025, this Directorate's acknowledgement letter thereafter (dated 15 August 2025), and the draft MMP, received by this Directorate via electronic mail correspondence on 21 August 2025, refers.
2. This letter serves to acknowledge receipt of the draft MMP by this Directorate.
3. This Directorate will provide comment on the draft MMP within the stipulated thirty (30) day comment period.
4. You are reminded that it is an offence in terms of Section 49A of the NEMA for a person to commence with a Listed Activity unless the Competent Authority has granted an Environmental Authorisation for the undertaking of the activity.
5. This Directorate reserves the right to revise or withdraw its comments or request further information from you based on any information received.

Your interest in the future of the environment is greatly appreciated.

Yours faithfully

Dear Sir

COMMENT ON THE DRAFT RIVER MAINTENANCE MANAGEMENT PLAN ("RMMP") IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT NO. 107 OF 1998) ("NEMA") AND THE ENVIRONMENTAL IMPACT ASSESSMENT ("EIA") REGULATIONS, 2014 (AS AMENDED): THE MAINTENANCE OF TWO FARM DAMS AND ASSOCIATED INFRASTRUCTURE ON PORTION 7 OF THE FARM NO. 153, STEENEBRUG, PIKETBERG

1. The request for the adoption of a Maintenance Management Plan ("MMP") for the maintenance of two farm dams and associated infrastructure, received by this Directorate via electronic mail correspondence on 4 August 2025, this Directorate's acknowledgement letter (dated 15 August 2025), the draft MMP, received by this Directorate via electronic mail correspondence on 21 August 2025, and this Directorate's acknowledgement letter (dated 22 September 2025), refers.
2. This Directorate has the following comment on the proposed maintenance and management interventions for two farm dams and associated infrastructure on Portion 7 of the Farm No. 153, Steenebrug, Piketberg:
 - 2.1 It is confirmed that the adoption of the RMMP only relates to the following Listed Activities and to the determination of whether or not Environmental Authorisation in terms of NEMA is required before undertaking the tasks stipulated in the RMMP:

Listing Notice 1 of the EIA Regulations, 2014 (Regulations)

Activity Number: 19

Activity Description:

"The infilling or depositing of any material of more than 10 cubic metres into, or the dredging, excavation, removal or moving of soil, sand, shells, shell grit, pebbles or rock of more than 10 cubic metres from a watercourse;

but excluding where such infilling, depositing, dredging, excavation, removal or moving—

- (a) will occur behind a development setback;*
- (b) is for maintenance purposes undertaken in accordance with a maintenance management plan;*
- (c) falls within the ambit of activity 21 in this Notice, in which case that activity applies;*

- (d) occurs within existing ports or harbours that will not increase the development footprint of the port or harbour; or
- (e) where such development is related to the development of a port or harbour, in which case activity 26 in Listing Notice 2 of 2014 applies."

- 2.2 Proof of the notification of the commenting period on the draft RMMP, the comments received, and responses thereto, must be submitted to this Directorate upon conclusion of the commenting period.
- 2.3 A final RMMP must accompany the proof of public participation particulars, with separate accompanying appendices saved in PDF (not scanned), with any required changes made in colour font.
- 2.4 You are reminded to comply with any other statutory requirements that may be applicable to the undertaking of activities stipulated in the RMMP.
- 2.5 Kindly note your general 'Duty of Care', as set out in Section 28 (1) of the NEMA, which states that -

"Every person who causes, has caused or may cause significant pollution or degradation of the environment must take reasonable measures to prevent such pollution or degradation from occurring, continuing or recurring, or, in so far as such harm to the environment is authorised by law or cannot reasonably be avoided or stopped, to minimise and rectify such pollution or degradation of the environment."

(Note: When interpreting their 'Duty of Care' responsibility, cognizance must be taken of the principles of sustainability contained in Section 2 of the NEMA).

- 3. Kindly quote the abovementioned reference number in any future correspondence in respect of the request for the adoption of an RMMP.
- 4. Please be reminded that it is prohibited in terms of the NEMA for a person to commence with a Listed Activity unless the Competent Authority has granted an Environmental Authorisation for the undertaking of the activity. Failure to comply in terms of this prohibition will result in the matter being referred to the Department's Directorate: Environmental Law Enforcement for possible prosecution. A person convicted of an offence in terms of the above is liable for a fine not exceeding R10 000 000 or to imprisonment for a period not exceeding 10 years, or to both such fine and imprisonment.
- 5. This Directorate reserves the right to revise or withdraw its comments or request further information from you based on any information received.

Your interest in the future of the environment is greatly appreciated.

Yours faithfully

Attention: Amanda Fritz-Whyte

Dear Amanda

RE: MMP - Proposed Maintenance of Farm Dams on Portion 7 of Farm 153 Steenebrug, Piketberg, Western Cape

DEA&DP ref: 16/3/3/6/3/FI/11/2154/25

1. Based on the freshwater specialist assessment of the dam area and non-perennial watercourses and riparian area and based on the satellite imagery of the site – it is understood that the property has been highly modified by agricultural activity, with the areas around the non-perennial streams and dams presenting signal of some potential indigenous vegetation present. Based on the freshwater specialist assessment of these areas as demonstrated in the freshwater assessment, it is understood that these areas are dominated by invasive alien species with a few areas of indigenous species but no community of shale renosterveld or Leipoldville Sand Fynbos.
 - 1.1 The 2017 BSP reasons layer indicates that the ESAs (now CBAs – as per 2023 WCBSP) associated with the dam and non-perennial stream areas were mapped due to association with shale renosterveld, sand fynbos and watercourse protection. Based on the freshwater assessment and mitigation measures as well as residual impacts/ risks associated with the proposed activities as assessed by the freshwater specialist, all risks to the watercourses/wetlands and associated habitats will be reduced to low negative residual impact upon implementation of the recommended mitigation measures. Watercourse protection as a management objective of CBA mapping therefore should still remain the same despite the proposed activity. The freshwater specialist assessment has demonstrated that representative shale renosterveld and sand fynbos is no longer present in the areas where activity will occur. CBA mapping associated with threatened vegetation types should therefore also not be affected by the proposed activities.
2. The freshwater assessment and MMP are supported. Some recommendations/comments on the MMP measures:
 - 2.1 It is recommended that heavy machinery and plant do not enter the watercourses/wetlands/dams and instead work from the edge as much as possible.
 - 2.2 Where access is required through vegetation, vegetation trimming should be preferred over clearing as much as possible.

- 2.3 MSI: Removal of silt and sediment from the farm dams – dam water level lowering – what are the flow rates to be maintained to avoid changes in downstream flow and sediment flushing?
- 2.4 MS2: Inspection and servicing of water pipelines – emergency plan – include the emergency protocol to be followed in the MMP to ensure all users are aware of and are able to implement if required.

CapeNature reserves the right to revise initial comments and request further information based on any additional information that may be received.

Kind regards,

Land-Use Scientist: Landscape West
