

Photo Report of Erf 615 – Images taken on 19 July 2025

Photo 1: Looking west towards the property, one can see the distance between the property of the edge of the shore. Erf 615 indicated by red arrow and the dashed, red line marks the proposed set back line.

Photo 2: Looking east below George Street one can see that the coastline is very rocky and that other residential properties are closer to the close line.

Photo 3: Looking west from the intersection of Camp Street and George Street. To the right one can see the Public Open Space (green arrow) and coastline. The height of the current building is consistent with the neighbouring houses. Erf 615 indicated by red arrow. Dashed, red line indicates proposed set back line.

Photo 4: Looking west, standing on George Street at the corner of the property. White wall on the right is the edge of Erf 615, the house is indicated by the red arrow. Dashed, red line indicates proposed set back line.

Photo 5: Looking south from George Street in front of the property. Tidal pool is indicated by the yellow arrow. Dashed, red line indicates proposed set back line.

Photo 6: Looking south-west. Tidal pool is on the right of the photo (yellow arrow); one can see the pebbly shore and the rockiness of the coastline. Coastal vegetation in the foreground.

Photo 7: Looking west standing at the south-east corner of the property. Property to the left and George Street and Public Area to the right. Dashed, red line indicates proposed set back line.

Photo 8: Standing on the boundary of the property looking south on to George Street. Gravel road in the foreground is Pandok Street. Public Open Space (green arrow) is on the left of Pandok and residential properties to the right. Dashed, red line indicates proposed set back line.

Photo 9: Standing on Main Road looking southwest at the front of the property and its main entrance (indicated by red arrow).

Photo 10: Photo taken on Camp Street looking south towards the coastline. The intersection is where Camp and George Streets meet. The white house in the right side of the image is on Erf 285. The red arrow points to a wave breaking providing evidence of outside protective reef, several meters off the shoreline.
