

This aerial map illustrates the 15th Ward, highlighting 16 numbered lots. A red outline encloses a specific area containing lots 2 through 16. Lot 1 is located outside this boundary to the north. The map also shows surrounding streets: Mikalea St to the north, R367 to the west, R102 to the east, and R367 to the south. A blue arrow in the bottom left corner indicates the North direction.

A photograph of a truck stop or parking area. Several white semi-trucks are parked in a row on the left. A small car is visible in the distance. A white arrow points to a fence line on the right side of the image.

Photo 1: R 102 view towards the south, site on right pointed by arrow.

Photo 2: Taken from R 102, view towards the west, site is fenced with razor wire to attempt to stop illegal dumping.

Photo 3: Taken from R 102 view towards the west, most southern corner of site, fence stolen by neighboring squatters.

Photo 4: Taken from R 102, view towards the east, Shoprite Eastern Cape Distribution Centre (DC) and the squatter settlement in view.

Photo 5: Municipality owned property on the right of the DC fence where the Municipal stormwater culvert will be located as per arrow.

Photo 6: Taken from Tynira Road view towards the north, site in distance, extensive litter visible.

Photo 7: Northwestern border of the site, razor wire fence was stolen.

Photo 8: View towards the east, prior to the applicant ownership the site was used as an illegal dumpsite.

Photo 9: None withstanding dumping, most vegetation on site is hacked, left to dry and then collected for firewood.

Photo 10: View towards the north-west, evidence of old building material dumped on site, various informal footpaths and large heaps of cut to dry vegetation dominating the landscape.

Photo 11: Illegal asbestos dumping, subjected to the required safe removal procedures when development takes place.

Photo 12: Most southern edge of current bush clearing for firewood purposes.

Photo 13: Area least affected by illegal dumping and bush clearing.

Photo 14: Previous excavation works on site.

Photo 15: Cleared open and trampled areas

Photo 16: Dumped asphalt.

Photo 17: Criminal activity is rife in the area, armed security required for any site visits
