

PHOTO REPORT:

PORTION 3 OF FARM AAN DE VALSCH RIVIER 186 AND FARM HOREB 149, RIVERSDALE

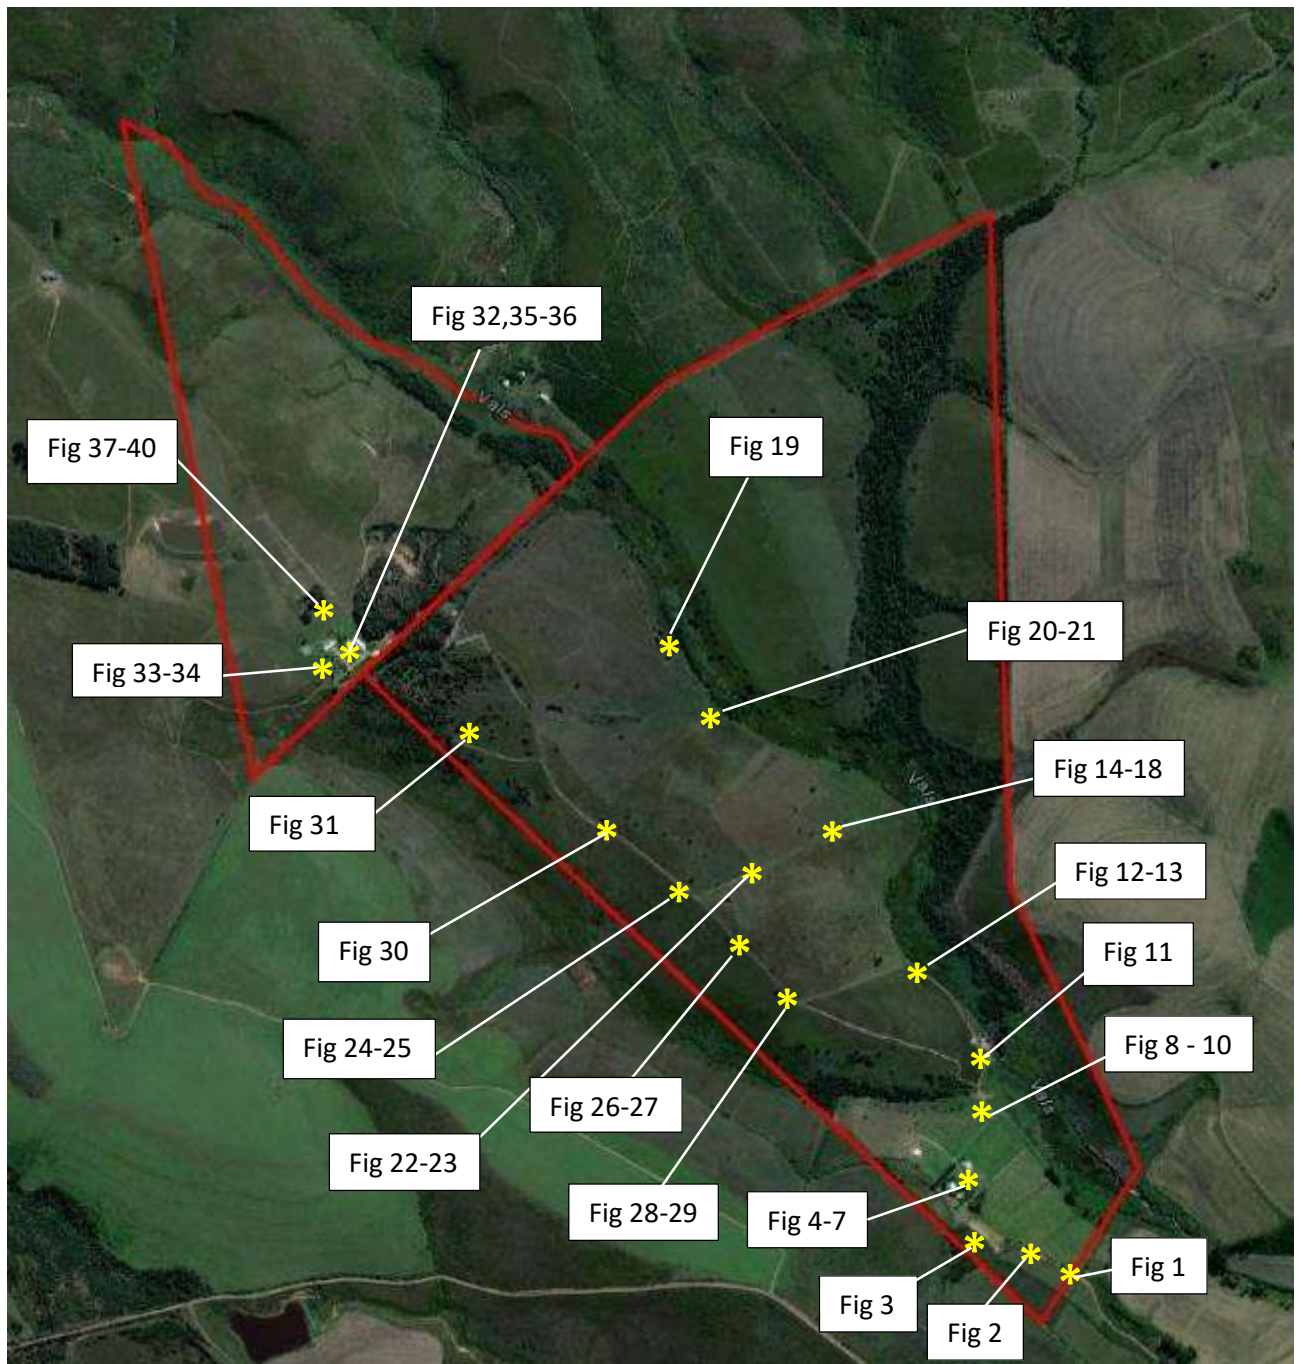

Figure 1: The gravel road entering the property from the south.

Figure 2: Showing the existing Avo Orchards in the south-east of the property.

Figure 3: Showing a small existing Dam at the entrance to the property on the southern boundary.

Figure 4: Showing one of the many existing dwellings / barns clustered in the southern farmstead.

Figure 5: Showing some existing infrastructure clustered in the southern farmstead.

Figure 6: Showing one of the many existing dwellings / barns clustered in the southern farmstead.

Figure 7: Showing one of the many existing dwellings / barns in the south (Same barn as in Figure 6 above).

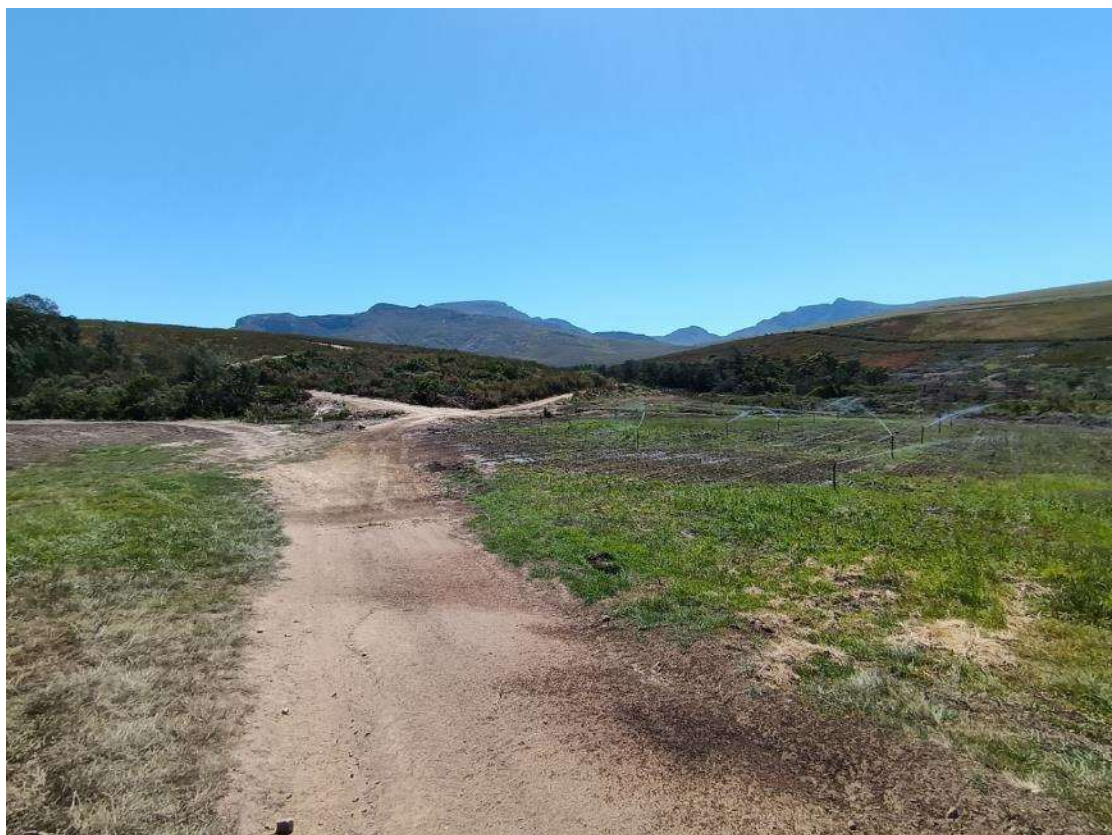

Figure 8: Beyond the farmstead in the south the gravel road splits in two, running to the north.

Figure 9: Taken in a westerly direction showing a stream crossing before the road splits.

Figure 10: Taken in an easterly direction showing the stream crossing in Figure 9.

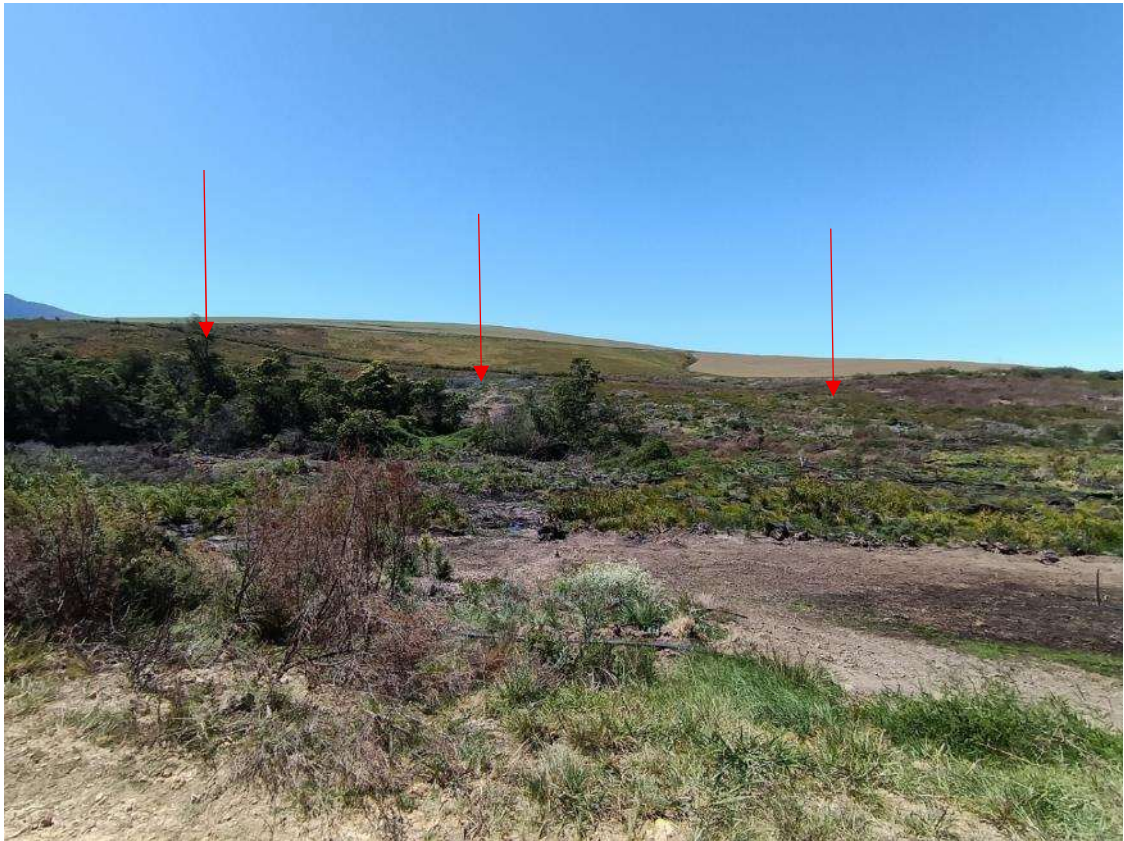

Figure 11: Taken in an easterly direction showing pocket 5 on the other side of the Vals River.

Figure 12: Taken in a northerly direction along the eastern road showing Pocket 4 to the left.

Figure 13: Taken in a southerly direction from Figure 12 with Pocket 4 on the right.

Figure 14: Taken in an easterly direction showing the extent of Pocket 4 with the Vals River along the edge.

Figure 15: Taken in a southerly direction showing the extent of Pocket 4 to the right and left.

Figure 16: Looking north-west from the road in the middle of Pocket 4 where water is pumped to the top of the hill.

Figure 17: Taken in a north-easterly direction showing Pocket 4.

Figure 18: Taken in a south-westerly direction showing Pocket 4.

Figure 19: Showing the continued alien clearing along the Vals River.

Figure 20: Taken in a northerly direction showing Pocket 3 on the Hill to the left with the Vals River to the right and continuous alien clearing being undertaken.

Figure 21: Showing the vegetation along the Vals River.

Figure 22: Going through the gate and up the hill shown in Figure 16 this photo is taken in an easterly direction (within pocket 4).

Figure 23: Going through the gate and up the hill shown in Figure 16 this photo is taken in a westerly direction (within pocket 4).

Figure 24: At the top of the hill the road in Figure 22/23 turns into the road running along the western boundary. Dam 1 is proposed to the right of the road in this approximate location.

Figure 25: At the top of the hill the road in Figure 22/23 turns into the road running along the western boundary. Dam 1 is proposed to the right of the road in this approximate location.

Figure 26: Dam 3 is proposed to the left of the road in this approximate location.

Figure 27: Dam 3 is proposed to the left of the road in this approximate location.

Figure 28: Taken in a south easterly direction as the road turns and heads back downhill to the homestead in the south.

Figure 29: Taken in a north westerly direction from the same location in Figure 30.

Figure 30: This picture is taken turning right instead of left at the T in Figure 24. Dam 2 is proposed to the left and right of the road in this approximate location.

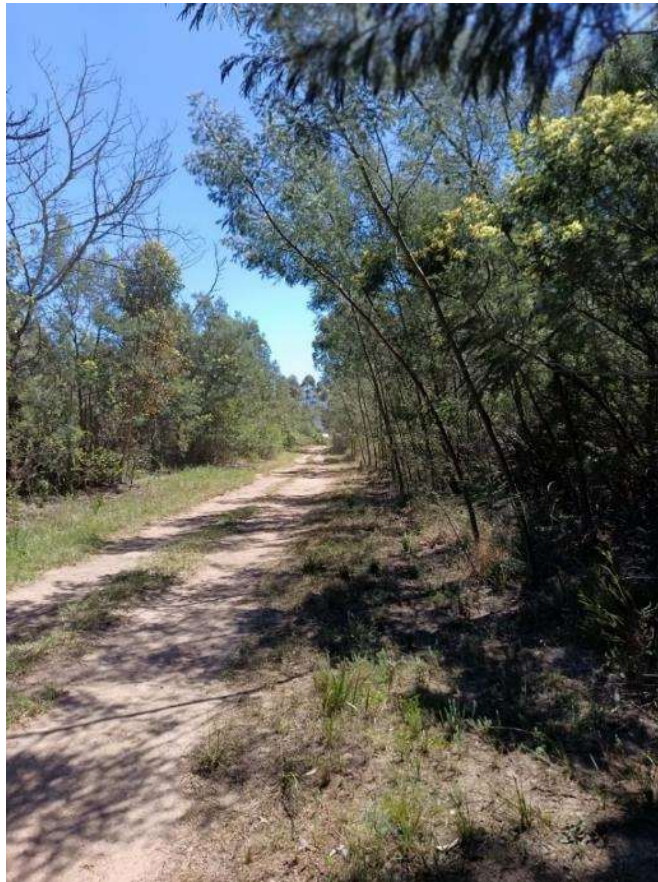

Figure 31: Showing the dense stands of pine trees and Black wattle on the road north to the homestead in the north.

Figure 32: Showing the dwellings/ barns found in the north on the property.

Figure 33: Taken in a northerly direction showing Pocket 2.

Figure 34: Taken in a northerly direction showing Pocket 2 (to the left of Figure 33).

Figure 35: Showing the dwellings/ barns found in the north on the property.

Figure 36: Showing the dwellings/ barns found in the north on the property.

Figure 37: Taken in a north westerly direction showing Pocket 2 and existing small scale sheep farming.

Figure 38: Taken in a northerly direction showing Pocket 2 and existing small-scale cattle farming.

Figure 39: Taken in an easterly direction showing the large clump of Blue Gum trees.

Figure 40: This photo was taken between Figure 37 and 38, note Pocket 1 in the distance.
